

Our mission statement

«Leading nursing care into the future.»

Our core values

Innovative

We shape the way the nursing professions are evolving and open up new horizons in training and education. We consistently align ourselves with the needs of our students and the demands of professional practice. We purposefully generate innovation via a combination of experience and new knowledge.

Practical

Our educational offers are aligned with relevant market developments and have been designed in cooperation with our professional partners to meet the demands of professional practice. We are quick to put innovations into practice and are perceived as a competence centre for practice-oriented, lifelong education and training.

Recognised

As an educational provider, we are appreciated and recognised by students, professional practitioners and public authorities alike. Our staff's and our students' competences and achievements are the forces that drive our company forward.

Innovative

- We are pioneers in tying international schemes, cooperations and activities to the fostering of socio-cultural competence.
- We have firmly anchored international student exchanges and the fostering of socio-cultural competence as an integral part of our nursing education.
- We are implementing socio-cultural training with novel forms of cultural simulations.
- We offer a student buddy programme that facilitates student exchanges and allows for individual socio-cultural experiences.
- We entertain a widespread network of international partner institutions, which benefits our students, our teaching staff and our collaborators in equal measure.

Practical

- We design our educational offers and activities in an evidence and needs-based manner.
- We place practical experiences at the centre of our exchange programmes.
- We actively cultivate a practice-oriented exchange of knowledge and experience among our international network of partners.
- We offer all the orientations and specialisations needed to reach individual goals in lifelong nursing education and training.
- Our continuing education and training follows international standards, thereby ensuring international connectivity and permeability.

Recognised

- Our concepts, methods and realisations follow scientifically recognised and field-tested models.
- We use an empirically-based and well-tested assessment tool.
- We are an exchange and cooperation partner for renowned international practice institutions.
- We are an active member of the European Nursing Module Network (ENM) and the European Association for International Education (EAIE).
- We cooperate with the Intercultural Development Research Institute (IDRI), the Intercultural Communication Institute (ICI) and the Society for Intercultural Education, Training and Research (SIETAR Switzerland).
